Donaldson Filtration Deutschland GmbH
Büssingstraße 1
D-42781 Haan
www.donaldson.com

declares under its own responsibility that all Donaldson high efficiency filter element ranges with the innovative filter media

are validated according the International filter standard

ISO 12500 part 1

This standard specifies the test layout and procedures for testing coalescing filters to determine the most important performance characteristics "oil aerosol removal" and "pressure drop".

Our quality management system is certified by DQS in conformity with the standard ISO 9001: 2000.
Reg. no. 000234 QM.

Haan, January 2010
