

Cartridge Filters for Non-Donaldson Systems

When replacing cylindrical/conical pairs in your Braden filtration system, choose from among four high-performance Donaldson filter media! These replacement elements are sized to fit Braden systems: 16" OD diameter at the large end and 26" long. They pair with our 26"-long cylindrical filters.

Media

Available in:

- Synthetic
- Synthetic/SpiderWeb
- Synthetic/SpiderWeb XP
- Duratek
- Duratek/SpiderWeb

- Filter media choices to accommodate your specific operating conditions.
- Constructed to ensure high filter performance: Donaldson Pleatloc™, and hot melt spiral beading, both inside and outside the filter.
- Galvanized metal endcaps and liners for long, corrosion-resistant life.

Dimensions

Large end OD: 16"/406 mm

Small end OD: 12^{3/4}"/324 mm

Length: 26"/660 mm
