

Replacement Elements Media

Torit-Tex™	
Product code	9032
Appearance	White, uncorrugated
Use	Pleatable filter media
Composition	Spun-bond polyester with ePTFE membrane
Area weight (DIN 53884)	260 g/m ²
Thickness (DIN 53885)	0.6 mm
Air permeability (DIN 53887)	210-360 m ³ /m ² /h
Dimensional stability	N/A
Surface finish	Tetratex® Extreme ePTFE membrane
Additional treatments	N/A
Surface electrical resistance (DIN 54345)	N/A
BIA category (DIN 60335-2-69)	Class M
Continuous temperature (dry heat)*	120°C
Chemical resistance	
Hydrolysis	N/A
Acids	Good
Alkalis	Good
Oxidising agents	Good
Organic solvents	Good
Abrasion resistance	Excellent
Supports combustion	Yes
Application field	Wide pleat spacing and smooth, hydrophobic PTFE membrane provides excellent particle release. Highly recommended for chemical, food and industrial processing when product contamination must be minimised. Excellent performance on moist, hygroscopic or agglomerative dust.
	Chemical processing, food processing, general industrial.

*Temperature limitations are for the media only and do not take other filter components into account.
